AHN JEFFERSON
Hospital

AHN doctors and clinical specialists work in multidisciplinary teams to provide personalized, comprehensive care for each patient, close to home — with access to clinical trials for the newest therapies.

CANCER INSTITUTE

We treat all types of cancer through surgery, radiation, chemotherapy, biologic therapy, immunotherapy, genomics, pathology testing, and imaging studies.

- Nurse navigators help cancer patients coordinate tests and treatment.
- We collaborate with Johns Hopkins Sidney Kimmel Cancer Center to advance care and give streamlined and guided access to clinical trials and second opinions.

CARDIOVASCULAR INSTITUTE

We keep hearts beating with new medicines, advanced hybrid procedures, and implantable devices to fight heart disease. Patients receive personalized treatment for heart failure, arrhythmia, pulmonary hypertension, and thoracic and lung disease.

- Robotic and minimally invasive surgery can reduce risk and speed recovery.
- Patients benefit from cardiac education, screenings, prevention, and rehabilitation.

EMERGENCY MEDICINE INSTITUTE

We offer critical 24/7 access to highly skilled emergency care, coordinating with EMS and emergency transport through our Prehospital Care Service team.

- Our newly expanded emergency department welcomes patients to a spacious, modern facility with the latest medical advances in emergency care.
- In-department imaging give patients faster diagnoses.
- LifeFlight helicopters deliver lifesaving care and fast patient transport.
- Our primary stroke center is certified at the highest level.
- Our Front Door program helps patients who lack basic social needs that can affect their health — like food and transportation — get help in the community.

NEUROSCIENCE INSTITUTE

We are an accredited, national leader in providing advanced therapies, proven technologies, and innovative procedures to help patients with complex brain, spine, and neurological conditions, including:

- Advanced, personalized care for movement disorders, stroke, or tumors.
- Managing headaches, back, and neck pain with therapy, medications, or surgery.
- Groundbreaking minimally invasive and robotic-assisted procedures to help us enhance patient safety and lower risk.

ORTHOPAEDIC INSTITUTE

High-quality specialized care for orthopaedic injuries and complex musculoskeletal conditions helps patients regain mobility and health.

- Specialists provide new therapies for comprehensive, coordinated concussion care.
- Elite sports medicine specialists help athletes overcome injuries and return to the game.
- For joint replacement, we use muscle-sparing, minimally invasive, robotic-assisted surgery, with advanced pain management.

WOMEN AND CHILDREN INSTITUTE

We care for women throughout their lives with obstetrics, midwifery, midlife care, primary care, breast care, advanced gynecologic surgery, bone density testing, and all medical subspecialties.

- Family-centered childbirth is available in our spacious birthing suites and a Level II NICU.
- Midwives are available for those who prefer a more natural approach to childbirth.
- Innovative treatments are offered for gynecological cancers, infertility, pelvic health, substance use disorder, and behavioral health.

We combine compassion and support with innovative technology to aim for the best possible outcomes.

Comprehensive, high-quality care, close to home

Since 1977, Jefferson Hospital has brought expert medical and surgical care to residents of the Monongahela Valley and Pittsburgh's South Hills. In 2014, Jefferson Hospital added a new Women's Health Center, a new labor and delivery unit, the first obstetrics unit to be built in the region in 34 years, and a Level II Neonatal Intensive Care Unit (NICU). In 2020, Jefferson expanded our emergency department to enhance our ability to serve the community.
